Davis & Elkins College
DIVISION OF MATHEMATICS & NATURAL SCIENCE

A degree in environmental science from Davis & Elkins College prepares one to understand the human impact on the world around us. The environmental science program offers an interdisciplinary course of study, emphasizing solution-oriented understanding of environmental problems and issues.

UNIQUE COURSES

- Geographic Information Science and Systems (GIS)
- Natural Resources Management
- Zoology
- Plant Taxonomy

GRADUATE SCHOOL PLACEMENTS

- West Virginia University
- American University
- Virginia Tech
- Wheeling University

EMPLOYMENT PLACEMENTS

- U.S. Fish and Wildlife Service
- U.S. National Park Service
- U.S.D.A. Forest Service
- Trout Unlimited
- J.F. Allen

STUDENT SUCCESS STORY

Alyssa Richmond graduated from Davis & Elkins College and graduated in 2017 with a degree in environmental science and minor in geospatial analysis. She was also a member of GreenWorks! and president of the Student Veterans Association.

Alyssa works for the U.S. National Park Service at Chaco Culture National Historical Park in New Mexico. At Chaco, Alyssa works on preserving the history and natural resources unique to the Southwest. She also puts the skills she developed in GIS to good use by mapping historical and natural resources throughout the park.
