LPN TO ASN ADMISSION REQUIREMENTS

Applicants who are Licensed Practical Nurses must meet the following requirements:

- Proof of licensure as a LPN;
- Submission of copies of all academic transcripts;
- Submission of two (2) letters of recommendation, one of which must be from the most current health care supervisor or instructor;
- College math placement testing into FND 112A or greater; and
- Achieve a score of 64 percent or better on the National League of Nursing (NLN) NCLEX Readiness PN Exam® (Remote Version HyFlex). Students may only take the exam two times per academic year. The academic year is defined as fall/spring/summer. Students have a maximum of two academic years at D&E to complete all the requirements prior to August 1 to be considered for admission to the nursing program. Therefore, a student has a maximum of 4 attempts on the NLN NCLEX Readiness PN Exam® (Remote Version HyFlex) to achieve a 64% or higher. Based on successful completion of this exam the student is awarded the following credit:
 - NURS 100A; Introduction to Nursing; 6 semester hours
 - NURS 107; Nutrition; 3 semester hours
 - NURS 108A; Introduction to Pharmacology; 1 semester hour
 - BIOL 107; Anatomy; 4 semester hours
 - BIOL 108; Physiology; 4 semester hours
 - PSYC 200; Life Span Development; 3 semester hours
 - Electives; 3 semester hours
 - Total: 24 semester hours

“Going back to school in my 40s made me worry about a learning curve. The LPN to ASN was difficult. I had been out of school for many years, but the professors helped me adapt things to ensure I got the most out of classes. They are real people who care about what is going on in your lives outside of school. They moved mountains for me and others in class. That is something I will always remember!” Roberta Troxal, RN, BSN Class of 2016

“I chose D&E’s LPN to ASN program because of the relationships I saw my mother gain from the the program. The extra care the professors gave to each of their students was amazing! My biggest concern was juggling an existing career as an LPN and school to further that career as an RN. The school truly understands life happens and they work with it. I couldn’t have chosen a better program, and I couldn’t have had better professors!” Stormie Troxal, RN, BSN Class of 2019
