- Military
- Travel Nurse
- Nurse Manager
- Case Manager
- Research Nurse
- Nurse Educator

"I obtained both my Associate's and my Bachelor's in Nursing from D&E. Being a non-traditional student and going back to school for my second career was challenging. Having attended courses at other institutions, I was impressed by the quality and commitment of the nursing professors to teach and mentor their students. There was not one time when any of them would not drop what they were doing to assist a student. The high expectations and requirements of the program guarantee that each student is receiving a solid nursing foundation." - David Gidley BSN, RN - Senior Charge Nurse, Emergency Department, Class of 2012
