TESTIMONIAL

"When I started at D&E, I was a little nervous, to say the least. Through the psychology and human services program, I met some of the most genuine and incredible people. The internship experience went above and beyond to teach us practical skills, and I was lucky enough to become employed at my internship site after I graduated. I now spend my days helping clients, and I've just been accepted into a master's program for counseling. I'm beyond grateful for all D&E has done for me. My journey as a counselor began with one psychology class, and I'll forever owe my love of it to D&E."

-Jamey Perrine, Class of 2019
